BAD WEBSITE (Tick Tock – Desktop)

1. **Design Style:**

   Very simple and plain layout

   Large empty spaces with poor alignment

   Looks unfinished and less attractive

2. **Content**:

   Shows only the watch image and brand name

   No description or supporting text

   Content does not explain why the product is special

3. **Navigation**:

   Only a single “Buy Now” button is present

   No menu or clear navigation options

   User may feel confused about next steps

4. **Purpose**:

   Purpose is not clearly communicated

   Does not strongly encourage users to explore or purchase

   Poor user engagement

GOOD WEBSITE (Tick Tock – Desktop)

1. **Design Style:**

Clean and modern layout

Proper spacing and alignment

Uses dark colour background to create a premium and attractive look

Balanced colours make the product stand out clearly

2. **Content**:

Clear brand name with a meaningful tagline

Large and focused product image

Displays ratings (stars) to show product quality

Content feels complete and informative

3. **Navigation**:

Clear layout guides the user naturally

"Buy Now" button is well placed and noticeable

Share and Like options are included for user interaction

Easy for users to understand what action to take

4. **Purpose**:

Clearly designed for product promotion

Dark colour theme increases visual attraction and user focus

Ratings and share options build trust and engagement

Encourages users to purchase the watch

Creates a professional and trustworthy impression

Key Differences:

Focus: Bad design lacks clarity, while good design highlights the product effectively

Design Aesthetics: Bad design is plain; good design is polished with an attractive dark theme

Content Depth: Good design provides better visual communication with ratings and actions

User Experience: Good design is easy to use, engaging, and interactive
